

CONEXIG: THE NEWEST GLOBAL CONSTRUCTION, INFRASTRUCTURE AND ENGINEERING CONSULTING FIRM.

And here is for the start of a smooth journey.

I am very grateful and proud to advise my network about the startup of CONEXIG, the newest global consulting firm. The fact that this is taking place during the hardest crisis we have ever seen has obviously not been planned. The timing does, however, gives us additional motivation to make it a successful venture. We certainly count on your support, our clients and friends, for that!

I personally feel very strongly that the group of experts we have combined must be presented to our clients and professional community now, despite the covid-19 situation. Our collective skills, reach and easy to deal with, will help our clients to overcome their current hardship smoothing their journey. We will enjoy the aftermath together.

CONEXIG starts up as a global consulting firm that was created to support clients with their worst and more complex issues, wherever they are. Our value proposition positions us uniquely to provide clients with the best of the large and small consulting firms while avoiding their inconveniences. We are large enough to ensure clients get the depth of skills, knowledge and experience they need. At the same time, we offer commercial flexibility, quick decision making and unusual conflict of interest situations.

Initially present in eight (8) countries, CONEXIG relies on successful and very experienced, multidisciplinary and deliberately geographically distributed leadership and teams. Our key markets include construction, infrastructure and engineering, broadly. Our experts are extremely knowledgeable in fields such as mining, metallurgy, oil & gas, power and energy, transportation, manufacture, telecommunications, real estate and technology.

We are strategically structured in the following six services lines with a view to provide our clients with a one stop shop for most services needed in the industries we operate in:

- Contract and Project Management
- Claims and Dispute Resolution
- Digital Solutions
- Governance, Risk, Fraud and Compliance
- Management Consulting

- Training and Learning

Finally, we are an American firm and as such, comply with the highest degree of corporate governance, ethics and compliance. The partners and professionals we recruited as well as our strategic alliances are expected to conduct themselves to the highest standards of ethics and are committed to our values.

Please check our website, brochures and additional information and feel free to reach out with questions and comments. If you'd like to get more information on how we can help you, please, go ahead and give us a call or an email.

We look forward to hearing from you!
