

PRESS STATEMENT FINAL RELEASE

CONEXIG AND QUANTUM GLOBAL SOLUTIONS JOINS FORCES TO SUPPORT GLOBAL MARKETS

Doha, Qatar – 8 March 2021: [CONEXIG](#), a multi-disciplinary company supporting private public sector infrastructure, engineering and construction projects and global construction support consultancy, [Quantum Global Solutions](#), a leader in construction claims and dispute avoidance are proud to announce their strategic alliance.

The agreement will strengthen the collaboration between the two organizations and expand both organization's services in the field of contract and project management, claims and dispute resolution, governance, risk and fraud compliance globally.

Led by [Felipe A. Isore Gutierrez](#), Founder and Managing Director, CONEXIG provides comprehensive solutions that assist clients meet their development goals of time, scheduling, budget and quality while still respecting people and the environment. The company has a global geographic presence covering the USA, Mexico, Puerto Rico, Colombia, Ecuador, Peru, Chile, Brazil, Argentina, Portugal, Spain, Angola, South Africa and Australia. CONEXIG provides services to help clients avoid and resolve complex matters throughout their lifecycle of value creation, maintenance or enhancement.

“The strategic alliance with Quantum brings together two companies with the same customer-focused philosophy to bring innovative solutions to the problems our clients face. We are committed to assisting our wide range of clients wherever they stand in the value creation lifecycle, whether they are in the process of creating value from project conceptualization, through planning, construction, operations and exit, or in the process of maintaining and enhancing value by providing retrospective and forensic based services. Our clients value our support in optimizing their opportunities to create value no matter where their needs are, both geographically and in their project lifecycle stage,” said Felipe A. Isore Gutierrez. Continuing he said, “Together our experienced, geographically dispersed and widely multi-disciplinary team positions the CONEXIG and Quantum alliance uniquely to provide our clients with world-class quality services and global expertise in new disciplines, that are sensitive to their culture, language and business needs.”

Figure 1. CONEXIG’s geographical presence further supports Quantum’s presence in Europe, the Middle and Far East and Australia.

“The strategic alliance between Quantum and CONEXIG is a win-win situation for both organizations. With CONEXIG’s primary client base in the Americas and Quantum’s focus on Europe, MENA, the Far East and Asia – together we rival the largest construction claims companies with our collective talent pool of global experts with ‘on-the-ground’ local presence to support our clients – worldwide expertise and local knowledge bringing clarity to the issues and resolving them amicably,” said [Peter Murphy](#), Quantum Managing Director. “In addition, apart from allowing the sharing of knowledge

and expert consultants we are proud that CONEXIG clients will benefit from our unique differentiators in the market; [Quantum Digital](#) and [Construction Dynamics](#).”

Quantum and CONEXIG remain independent firms and will continue honoring their existing and future confidentiality agreements as individual firms. A conflict check system will be implemented and processed for every opportunity the firms assess jointly following the conflict checking best practice procedures.

About Quantum Global Solutions (www.qgs.global)

As a trusted partner to global construction contractors and developers, [Quantum](#) is one of the world’s leading independent construction claims and dispute avoidance consultancies.

With our solution-based philosophy we bring clarity, insight and professional experience to difficult construction disputes facilitating open discussions to reach an amicable resolution for both parties on contractual and commercial matters, dispute resolution, dispute avoidance, forensic planning and litigation support.

Our [expert](#) consultants specialise in mediation, arbitration and adjudication providing expert reports, expert opinion and testimony in matters of Quantum, Delay, Construction Management and Technical Review at cross examination under ICC rules at international arbitration.

In addition, our unique differentiators include our inhouse energy divisions, [Quantum Energy](#) and [Quantum Digital](#), our claims movies creative specialists bringing visual clarity to the most complicated construction problems and our partnership with construction delay and disruption technology specialists, [Construction Dynamics](#).

Quantum is also strongly committed to sharing our industry knowledge and experience with our clients and through the Quantum Lecture Series provides online, team and one-to-one training to promote a non-adversarial approach to construction projects.

With over 200 consultants, Quantum works across Europe, the Middle East, Africa, the USA, Australasia and Asia where it also works in partnership with [Plus 3](#) and [CCR](#).

Quantum is regulated by the Royal Institution of Chartered Surveyors (RICS) and is an award-winning member of the communities we live and work through our CSR programme, Q-munity.
