PROFILE

Jesus Corona is an Executive Consultant with 14 years of professional experience in large-scale construction projects, primarily in the oil and gas industry. Jesus has been involved with construction complex projects in various capacities, including:

- Schedule/Cost Analyst, responsible for the master planning and project controls on large-scale oil and gas projects, including international public tenders for engineering, procurement and construction (EPC) contracts.
- Project Supervisor on EPC Contracts related with multi-phase pump systems, as well as electric generation and interconnection of oil and gas platforms in the Gulf of Mexico.
- Project Coordinator, leading the construction group in charge of the installation, pre-commissioning, commissioning and start-up of turbomachinery equipment on offshore platforms in the Gulf of Mexico. He implemented project controls and procedures for the preparation, presentation and follow-up of construction claims.
- Executive Consultant, responsible for the analysis and preparation of technical expert reports for claims and dispute resolutions that were settled in arbitration under ICC (International Chamber of Commerce) regulations, as well as in the American Chamber of Commerce Arbitration Centre (AmCham) in Lima, Chile-US Chamber of Commerce, and others. He participated in arbitration hearings, testifying as an expert witness in various Latin American countries, including Panama, Uruguay, Chile, Colombia, Peru and Mexico.

Jesus has been recognized as one of the Expert Witnesses Future Leaders for 2021 by the global community of construction lawyer's industry (Who's Who Legal). <https://whoswholegal.com/jesus-corona-vasquez>

- BSc, Computer Science, Universidad Veracruzana, México
- MSc, Construction, Cámara Mexicana de la Industria de la Construcción CMIC
- MSc, Construction Administration, Cámara Mexicana de la Industria de la Construcción CMIC (In progress)

MEMBERSHIPS

- Asociación Latinoamericana de Derecho de la Construcción (ALDEC).

DETAILED EXPERIENCE

MANUFACTURING

- **Paper Pulp Plant, Montevideo, Uruguay**

Jesus acted as Executive Consultant, responsible for cost analysis on an international arbitration involving a \$137-million Paper Pulp Plant EPC Contract in Montevideo, Uruguay. He also served as a tribunal appointed expert, providing expert testimony during the arbitration. The confidential matter was settled in ICC (International Chamber of Commerce) arbitration Montevideo, Uruguay.

MINING

- **Water Pipelines, Chile**

As Executive Consultant, Jesus provided cost and schedule analyses of a dispute involving early termination of \$67.5-million EPC Contract for a 166 km. Water Pipeline project in Antofagasta, Chile. The project involved the fabrication and installation of 26-inch water pipelines. Jesus also testified as an expert witness during arbitration of the matter settled in CAM (Centro de Arbitraje y Mediación) Santiago de Chile.

POWER / ENERGY

- **Hydroelectric Power Plant, Peru**

As Executive Consultant, Jesus was a party appointed delay expert on a dispute involving a Concession Contract for the supply of renewable energy. The Contract includes the construction of a 20MW run-of-the-river Power Plant in Peru. He performed a detailed schedule analysis and successfully provided expert testimony before the Tribunal and was cross examined during the arbitration proceedings. The confidential matter was settled in CCL Arbitration (Cámara de Comercio de Lima, Perú).

- **Hydroelectric Power Plant, Ecuador**

As Executive Consultant, Jesus performed cost and schedule analyses for a confidential hydroelectric project in Ecuador. The project involved the international arbitration of a dispute over additional scope of work on an EPC contract.

- **Hydroelectric Power Plant, Panama**

Jesus was an Executive Consultant, responsible for cost and schedule analyses of a dispute involving early termination of the EPC contract on a hydroelectric power plant project in Panama. The confidential matter was settled in ICC arbitration.

- **Thermoelectric Power Plant, Peru**

Jesus performed a detailed schedule analysis and provided expert testimony before the Tribunal and was cross examined during the arbitration proceedings. This arbitration involves a dispute for the overrun costs in the Construction of a Gas Measurement and Regulation Station (Citygate) to supply gas for a Thermoelectric Power Plant in Peru. The dispute was settled in AMCHAM (Cámara de Comercio Americana del Perú) arbitration in Lima, Perú.

- **Combined Cycle Thermoelectric Power Plant, Mexico**

As Executive Consultant, Jesus performed a detailed schedule analysis and provided expert testimony before the Tribunal and was cross examined during the arbitration hearing. This arbitration involves a dispute for the overrun costs in the Construction of Combined Cycle Thermoelectric Power Plant in Mexico. The Confidential matter was settled in CMA (Centro de Mediación y Arbitraje) Cámara Nacional de Comercio en México.

INFRASTRUCTURE

- **Nuevo Aeropuerto Internacional de la Ciudad de México NAICM, México**

As Executive Consultant, Jesus performed a detailed cost analysis for a dispute related to additional scope of work on Supervision Contract for the International Airport Construction (\$175.7-Million). He also assisted the appointed expert, providing material and power point presentations during the hearings in New York City. The matter was settled in ICC (International Chamber of Commerce) in New York, USA.

WATER / WASTEWATER

- **Wastewater Treatment Plant, Colombia**

As Executive Consultant, Jesus conducted cost and schedule analyses for a dispute related to additional scope of work on EPC contract for a Wastewater Treatment Plant construction. He also served as appointed expert, providing expert testimony during the dispute board resolution procedure. The matter was settled in CAC (Centro de Arbitraje y Conciliación de la Cámara de Comercio de Bogotá).

OIL AND GAS

- **Coke distribution System, Colombia**

Jesus performed scheduled analysis for a claim involving additional scope and delay termination of refinery expansion and coke distribution system in Colombia. The matter was settled in ICC arbitration.

- **Servicios de Turbinas Solar S.A. DE C.V., Campeche, México**

Jesus was Project Supervisor, responsible for the integration, testing and start-up of turbocompressors, generators, pumps, and chargers contained in multiple solar models. In this position, Jesus led a construction team comprised of offshore construction supervisors, industrial safety supervisors, supervisors of testing and startup, and outsourced staff. As Project Supervisor, Jesus oversaw the following projects:

- Offshore Project Rebombeo/PD56551, Integration, test and startup of one Turbopump Solar Model Centaur-50.
- Offshore Project PBKUM/PD3P241, Integration, test and startup of one Turbocompressor Solar Model Taurus-60.
- Offshore Project CPTG-Atasta/PD55601, Integration, test and startup of three Turbogenerators Solar Model Centauro-50, Gulf of Mexico.
- Offshore Project PBKUH/PD3P631, Integration, test and startup of one Turbocompressor Solar Model Taurus-60, Gulf of Mexico.
- Offshore Project REBOMBEO/PD39J21, Integration, test and startup of four Turbopumps Solar Model Centauro-50, Gulf of Mexico.
- Offshore Project PBKUS/PD65071, Integration, test and startup of one Turbocompressor Solar Model Taurus-60, Gulf of Mexico.
- Offshore Project EKUA1/PD65011, Integration, test and startup of one Turbocompressor Solar Model Saturno-20, Gulf of Mexico.
- Offshore Project NohochA2/PD3K971, Integration, test and startup of three Turbocompressors Solar Model Mars-100, Gulf of Mexico.
- Offshore Project NohochAE/PD3K981, Integration, test and startup of two Turbocompressors Marca Model Taurus-60, Gulf of Mexico.
- Offshore Project EKUA1/PD3R071, Integration, test and startup of one Turbocompressor Solar Model Saturno-20, Gulf of Mexico.

- **UNACAR, Outsourcing Pemex, Campeche, Mexico**

Jesus was Project Supervisor on several EPC Contracts, including the engineering, procurement, and construction (EPC) offshore platforms, and multi-phase pump system and submarine cable installation in the oil and gas fields at Maloob and Zaap, located in the Gulf of Mexico. He actively participated in the following projects:

- Project KMZ-9106 (PG-ZAAP-C Generation Platform), “Engineering, procurement and construction (EPC)”, Campeche, Gulf of Mexico.
- Project KMZ-9113 (Submarine cable installation on the oil and gas fields Maloob and Zaap) “Engineering, procurement and construction (EPC)”, Campeche, Gulf of Mexico.
- Proyecto KMZ-9142 (Multiphase Pump System on the oil and gas fields Maloob and Zaap) “Engineering, procurement and construction (EPC)”, Campeche, Gulf of Mexico.
- INTERNATIONAL PUBLIC TENDER No. 18575106-507-12 “Engineering, procurement and construction (EPC)” KU-B Platform, Campeche, Gulf of Mexico.
- INTERNATIONAL PUBLIC TENDER No. 18575106-508-12 “Engineering, procurement and construction (EPC)” ZAAP-E Platform, Campeche, Gulf of Mexico.

- **SWECOMEX S.A. de C.V., Campeche, México**

Jesus was Schedule and Cost Analyst on EPC contracts involving the engineering, procurement, and construction of six offshore platforms, including the Tsim-B, Tsim-A, Kuil-A, Maloob-D, Kambesh, and Jack UP (Friede and Goldman design) platforms. He actively participated in the following projects:

- Project PB-KU-M/PEP-0-IE-342/04 “Engineering, procurement and construction (EPC) PB-KU-M Platform” Campeche, Gulf of Mexico. The construction took place in Tuxpan, Veracruz, Mexico.
- Project PB-KU-S/PEP-0-IE-326/04 “Engineering, procurement and construction (EPC) PB-KU-S Platform” Campeche, Gulf of Mexico. The construction took place in Tuxpan, Veracruz, Mexico
- Project Independencia 1 “Engineering, procurement and construction JACK UP Platform, Friede and Goldman Design”, Campeche, Gulf of Mexico.
- INTERNATIONAL PUBLIC TENDER No. 18575106-019-09, “Engineering, procurement and construction (EPC) KAMBESAH Platform”, Campeche, Gulf of Mexico.”
- INTERNATIONAL PUBLIC TENDER No. 18575106-012-10, “Engineering, procurement and construction (EPC) MALOOB-D Platform”, Campeche, Gulf of Mexico.”
- INTERNATIONAL PUBLIC TENDER No. 18575106-002-10, “Engineering, procurement and construction (EPC) KUIL-A Platform, Campeche, Gulf of Mexico.”
- INTERNATIONAL PUBLIC TENDER No. 18575106-502-10, “Engineering, procurement and construction (EPC) TSIMIN-A Platform, Villahermosa, Tabasco.
- INTERNATIONAL PUBLIC TENDER No. 18575106-503-10, “Engineering, procurement and construction (EPC) TSIMIN-B Platform, Villahermosa, Tabasco.
